

A kitchen designed to bring people together

We believe the kitchen is the heart of the home, and our client needed a space that truly reflected this.

We delivered on this vision; designing a family-orientated space that perfectly balances style with functionality.

Before the transformation

The original kitchen layout simply didn't suit the demands of a busy family lifestyle.

An island was a non-negotiable for the clients and they were open to creative solutions to make it work - including a full reconfiguration of the ground floor.

Reimagined for everyday living

We proposed removing a wall to open up the space, allowing for a generous island and transforming the kitchen into a modern, sociable hub designed for entertaining.

Opening up the home

What was once a narrow, disconnected kitchen with a separate dining room has been completely reimagined as a light-filled, open-plan space with a stunning contemporary layout.

Style meets smart storage

Our bespoke cabinetry brings strong answers to complex storage solutions, which, combined with modern forward-thinking appliances, come together to create something truly unique.
