

The Kitchen Everyone Talks About: Discover Keeley's kitchen story

We recently caught up with our client Keeley, who shared her experience of creating her dream kitchen with Ashford Kitchens & Interiors.

What started as a small kitchen sandwiched between two rooms became a beautiful open-plan space designed for cooking, working, relaxing and entertaining.

Discover the full transformation above - the journey truly speaks for itself!

"It was so seamless from start to finish."

Designed around a clear vision

Keeley knew exactly what she wanted from her new kitchen and was looking for a company that could manage the entire process.

After exploring her options, Ashford remained the obvious choice.

"I always knew I wanted to go with Ashford Kitchens because I loved the showroom." From there, the project flowed effortlessly.

"Loved the design process, loved the guys that came in to fit. Loved it."

"Ashford Kitchens made it really easy."

A project delivered on time

Like many homeowners embarking on a major renovation, Keeley had a strict deadline to work towards.

She had been warned repeatedly that moving into her home by September would be difficult, but our organised approach helped keep everything on track.

"They stuck to their timings, they were really organised. They had a schedule of works. They stuck to it, which meant that actually we were able to move in when we said we were going to move in."

A space to enjoy every day

Today, Keeley's kitchen is far more than a place to cook. It's a space that adapts to every part of daily life.

"I can work in here, I can relax in here, I can cook in here, we can socialise in here."

The result is a room that works hard while feeling effortlessly stylish, making the most of every inch of the extension.

And perhaps the greatest compliment of all?

"We get loads of compliments on our kitchen, so whenever anyone comes in and they always compliment us, I always say you need to go to Ashford Kitchens."

Don't just take our word for it...
